

Insurance Valuations – British Waterways

Client: British Waterways
Site: 300 sites across the South West
Offer: Fire Reinstatement Valuations

Overview

Evans Jones was appointed to complete Fire Reinstatement Valuations of more than 300 properties in the Kennet and Avon, Gloucester to Sharpness and Bridgewater and Taunton canal networks.

These comprised a mixture of workshops, warehouses, lock keepers cottages, control cabins and residential properties. A large number of the properties were from the Victorian period and many were Listed.

Challenges

The main challenge was to present information in a format which was easily manipulated and integrated into British Waterways existing system.

The coordination of over 300 inspections in a short time period was also challenging.

Results

We designed a standard form to be used on all properties which gave both headline and detailed information.

Using our team of Building Surveyors we delivered all inspections and reports within an eight week period.
